

## Modular Approval Declaration Letter

(Date) 30/08/2013

**USB Wireless Module FCC ID:** YWTWF53721MX

is seeking FCC Authorization as a ☒ *Single Modular transmitter* / ☐ *Single Limited Modular Approval* (Please check one).  
The EUT meets the requirements for ☒ *Single Modular approval* / ☐ *Single Limited Modular Approval* (please check one)  
as detailed in FCC public Notice DA00-1407. Compliance to each of the requirements is described below:

Questions are: \* Please provide a detailed explanation if the answer is "No."

1. "The modular transmitter must have its own RF shielding." ☒ Yes / ☐ No  
Note: The shielding of the radio portion can be demonstrated in the exhibition of "Exterior Photo".
2. "The modular transmitter must have buffered modulation/data inputs." ☒ Yes / ☐ No  
Note: buffered data inputs stage has been integrated in "chip RT5372".
3. "The modular transmitter must have its own power supply regulation." ☒ Yes / ☐ No
4. "The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(c)." ☒ Yes / ☐ No  
Note: the requirements of antenna connector and spurious emission have been fulfilled. Please refer to the Test Report.
5. "The modular transmitter must be tested in a stand-alone configuration." ☒ Yes / ☐ No  
Note: please refer to Setup Photo for the stand-alone test configuration.
6. "The modular transmitter must be labeled with its own FCC ID number." ☒ Yes / ☐ No  
Note: the instruction on the labeling rule of the end product has been stated in the User Manual of this module. Please also see the exhibition of "Labe and Label Location".
7. "The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacture must provide adequate instruction along with the module to explain any such requirements." ☒ Yes / ☐ No  
Note: the required FCC rule has been fulfilled and all the instructions for the maintaining compliance have been clearly stated in the User Manual.
8. "The modular transmitter must comply with any applicable RF exposure requirements." ☒ Yes / ☐ No  
Note: please refer to the exhibition of RF Exposure for the compliance of MPE RF exposure rule.

**Note:** Compliance of a module in its final configuration is the responsibility of the applicant. A host device will not be considered certified if the instructions regarding antenna configuration provided in the original description, of one or more separately certified modules it contains, were not followed.

**Example:** A separately certified low-power transceiver module using Bluetooth technology which is housed in a desktop computer, laptop or peripheral does not require the overall system to be recertified, if the desktop computer, laptop or peripheral, as a stand-alone unit, complies with all applicable technical standards.
